LIFE-LONG LEARNING MADE EASY

SCCAP offers several vehicles for staying up to date on evidence-based practice and other issues relevant to child and adolescent mental health. Our **webinar series** focuses on topical issues and is enhanced by **member forums** that extend networking and educational opportunities after the webinar is over. SCCAP53.org contains links to keynote speeches and **treatment training videos** developed in partnership with the FIU Center for Children and Families. Personalized learning is also available by participating in SCCAP's **Mentor programs**.

CO-SPONSORED CE & CONFERENCE PROGRAMS

SCCAP takes an interdisciplinary approach to sponsoring CE programs as a way to more broadly advocate for children's mental health and to provide members with a variety of network of experiences. **APA CE Program listings: SCCAP53.org**
SCCAP co-sponsors the MICAMH and NCCCAP Conferences that provide child and adolescent focused programing.

JCCAP Future Directions Forum

We launched the *Future Directions Forum* to help early career scientists build their scientific toolbox. At the *Forum* (June 28th-29th; Washington, DC), we dedicate a full day to offering professional development workshops, as well as small group and one-on-one expert consultations on all aspects of academic work. We webcast many of these events online so that those who cannot attend in-person can have access to this content from wherever they are.
