

December 22, 2020

It has been an honor to serve as the Member at Large, Membership for the Society of Clinical Child and Adolescent Psychology (SCCAP). I continue to be passionate about serving early career members and facilitating changes in programming that would increase benefits for new professionals and trainees. I would be honored to continue to represent our membership base. My goal is for SCCAP to feel like a professional home to all of our members, and I would love to keep working to make this a reality.

I look forward to continuing to support our students. Working with our student representatives, we identified barriers to participation in surveys and membership renewal. As such, we saw an increase in our student membership by focusing on benefits that mean most to our trainees, such as the student listserv, virtual mentoring events, awards, and webinars. We are also working with training programs to promote membership, and create programming and a liaison leadership role for trainees.

I plan to continue to increase our membership committee involvement and we are working together to further initiatives including organizing local mentorship and networking events, developing conference and training events of interest to our new psychologist colleagues. I am also working to facilitate opportunities for ECP leadership in current and novel SIGs.

As a board member, I plan continue being available for meetings and conferences, and to make communication and dependability a priority in representing my peers. I value volunteer service, and I take my commitments seriously. I would be delighted to attend local and national events in order to promote the interests of my peers and further develop my skills as a leader. Thank you for your consideration.

Sincerely,

Chrissy Cammarata, PhD, ABPP
